

Crawly! Hairy! Maybe a bit scary? Snails slime upside down. Eeek! Worms can somersault and butterflies smell like cake. YUM. Wait, don't eat them... Because bugs are truly BRILLIANT!

Find out all about bugs and why minibeasts are truly awesome in their own unique way in Matt Robertson's brand new book.

Learn all about worms, bees, beetles, dragonflies, butterflies, moths, grasshoppers, spiders, ants, snails and stick insects in this bug-tastic book. Find out how honey bees make their honey, why moths always fly around lamps and how bombardier beetles protect themselves from hungry predators. Full of fascinating and fun facts, you'll never look at insects in the same way.

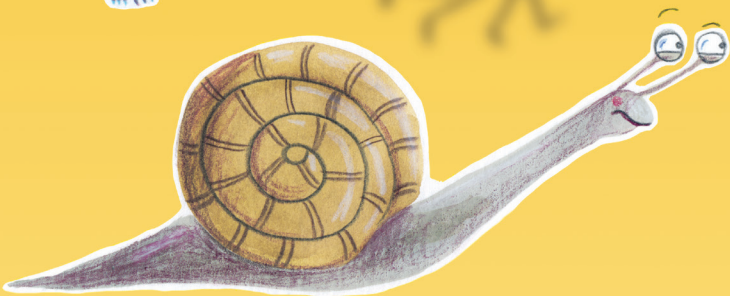

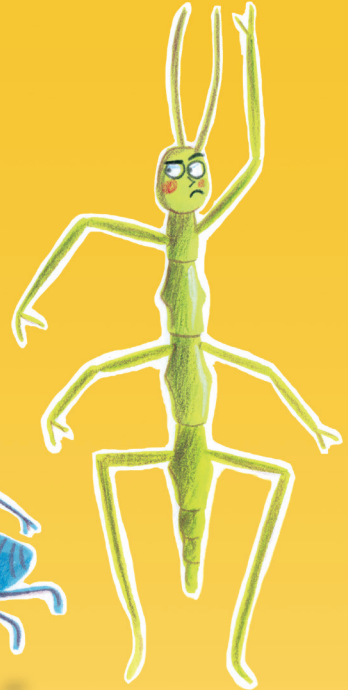

Worms aren't picky eaters, in fact they will eat anything!
Help these worms find their lunch

Match The Bug!

Match the shadows to the correct bug by drawing a link between them!

Fascinating Facts About Bugs!

Did You Know...?

- One bee hive can make 80 jars of honey in a year!
- Stick insects' favourite leaves to munch on are bramble, oak and hazel
- The African giant earthworm can grow to be taller than a giraffe!
- Most spiders have eight eyes
- If you could jump like a grasshopper, you would be able to reach the top of a five-story building in one leap
- It would take a snail around half an hour to travel across this page
- Butterflies taste with their feet
- Baby dragonflies live underwater and fart to propel themselves around
- Ants live together in groups called colonies that can be millions strong
- Christmas beetles live in Australia and South Africa and only come out of the soil around Christmas time

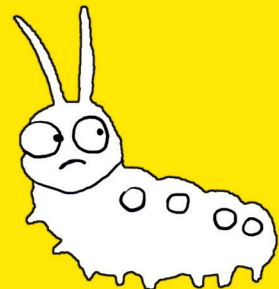

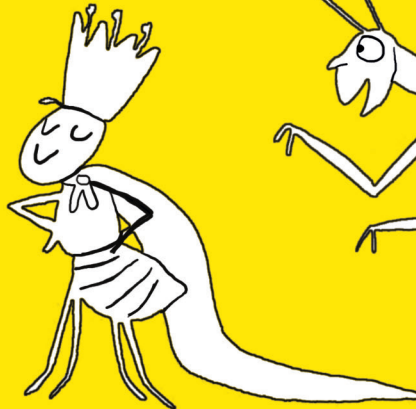

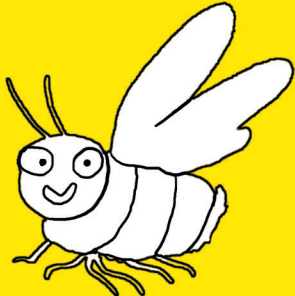

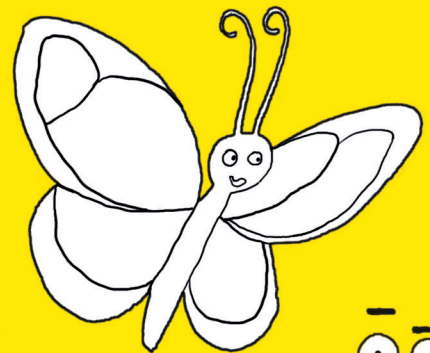

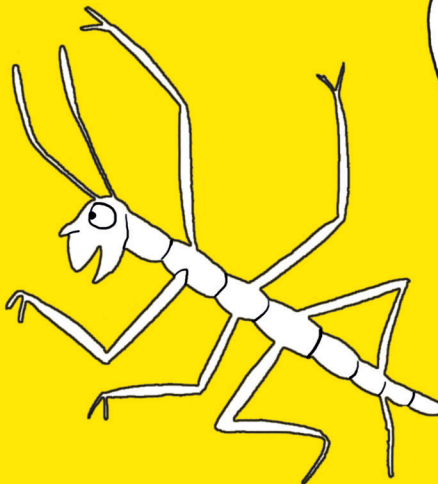

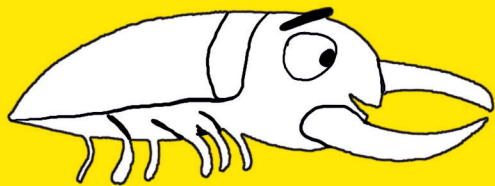

To love a bug, remember these golden rules. Bugs are everywhere after all.

- Be careful not to bother bees.
- Show respect for the stick insect.
- No need to squirm when you see a worm.
- Give spiders a smile not a scream.
- Always be good to grasshoppers.
- Take care to step over a snail.
- Try not to bat butterflies and never make fun of moths.
- No need to dodge dragonflies.
- Never get angry at ants ...

... and BEWARE of bashing beetles.
